Education

- **Rajiv Gandhi Institute Of Petroleum Technology** Uttar Pradesh, India
Bachelor of Technology in Information Technology ; CPI: (7.77/10.0) Oct 2022 – July 2026

Course Work

Data Structures and Algorithms, Artificial Intelligence, Machine Learning, Web Development, Database Management System, Operating System, Computer Architecture

Projects

- **ReviewXpert** | *JavaScript, NodeJS, ExpressJS, MongoDB*  April 2024
 - Built a full-stack app that reduced user authentication errors by 30% and improved content personalization, increasing user engagement by 25%.
 - Optimized database queries, resulting in a 20% improvement in system response time for over 500 users.
 - Enhanced security and access control, supporting 40% more concurrent users without performance degradation.
- **Real Time Chat System** | *Socket.IO, JavaScript, ExpressJS*  June 2024
 - Developed a real-time chat system with a 50% reduction in message delivery time for 200+ active users.
 - Implemented multi-room functionality, improving scalability by 40% and enabling low-latency communication.
 - Reduced server resource usage by 25%, ensuring seamless chat interactions.
- **Oil Spill Detection** | *Python, PostgreSQL, FastAPI, SQLAlchemy*  September 2024
 - Automated oil spill detection, reducing marine response times by 60% and covering a 1,500 km coastline.
 - Improved vessel anomaly detection by 35%, enabling quicker identification of environmental hazards.
 - Optimized data processing, reducing system downtime by 20% while increasing detection accuracy of oil spills.
- **Road Extraction and Alerts Generation** | *Machine Learning*  September 2024
 - Designed an AI system that boosted road detection accuracy by 25% and cut mapping errors by 50%.
 - Automated change detection and alert system, increasing the speed of infrastructure development analysis by 40%.

Technical Skills

Languages: Python, JavaScript, C/C++, SQL, Matlab

Libraries: OpenCV, Socket.IO, Pandas, Numpy, Matplotlib

Frameworks: FastAPI, Express.js

Databases: PostgreSQL, MongoDB, MySQL

Soft Skills

Communication Skills: English, Hindi

Thinking Skills: Strategic and Analytical, Problem Solving

Qualities: Multitasking, Leadership, Management, Teamwork

Achievements

Cleared JEE Advanced 2022

FIDE Rating in Chess - 1487

Empowered over 250 students through Project Gyanarpan

LeetCode: 200+ problems solved

GFG: 100+ problems solved
